Dear Mr. Chao:

NAS MOFFETT FIELD PHASE I CHARACTERIZATION REPORT OUTLINE

The Department of Health Services (DHS) has reviewed your proposed outline for the Phase I Characterization Report and has the following comments:

1. Page 2, Section 3: This section should also include a description of the ecology of the base.
2. Pages 2-9, Sites 1-19: A section on source characteristics, e.g. an evaluation of the mobility and persistence of source contaminants needs to be added for each site.

If you have any questions regarding these comments, please call me at (415) 540-3818.

Sincerely,

Lynn Nakashima
